Darren Robson

Virtual Assistant, Data Reporting Specialist & Web Developer
Sandton, Gauteng, South Africa | darrenrobson2001.dr@gmail.com | +27 84 411 4748
LinkedIn: linkedin.com/in/darren-robson-215b77373 | GitHub: github.com/darrenrosbon
CV site: darrenrosbon.github.io/DarrenRobsonHub | Design portfolio: darrenrosbon.github.io/darren-portfolio-site
Valid South African driver's licence and own vehicle. Open to remote roles.

PROFILE

Remote virtual assistant, data reporting specialist and web developer with 3+ years of remote administration and data experience. Reconciles PayPal and Stripe sales data for accounting teams, keeps calendars, inboxes and records running, and builds bespoke tools and automations, like Excel VBA macros that save an estimated 18+ hours a month. Designs and develops responsive websites and web apps end to end and is very experienced with AI tools for web and app development. Excellent written English (EF SET C2). CompTIA A+, Network+ and MCSA certified.

WORK EXPERIENCE

Web Developer & UI/UX Designer

Independent (Robson Web Studio), Remote | Jul 2024 - Present

- Designs and builds responsive websites and web apps, from layout to visual design.
- Designs mobile app flows in Figma, including onboarding, home, tracking and rewards screens.
- Designed and built Chroma.GG, a Windows app and website, as a solo developer.
- Connects front ends to back ends and automations using Supabase, Zapier and the Claude API.
- Uses AI tools across web and app development and builds tools and automations that complete tasks accurately and quickly.
- Works with Figma, Photoshop, HTML, CSS, JavaScript, C#, Supabase, WooCommerce and Vercel.

Virtual Assistant & Data Entry / Reporting Specialist

MacPherson Crafts (Canada), Remote | Mar 2023 - Present

- Handles day-to-day virtual assistant duties: scheduling calendars and meetings, managing email accounts and inboxes, filing and keeping records, liaising with suppliers and customers, and preparing documents, reports and summaries.
- Reads in and reconciles PayPal and Stripe sales and payment reports for the accounting and bookkeeping department.
- Processes invoices and payments, records expenses, organises receipts and maintains transaction records.
- Formats, cleans and maintains large Excel and Google Sheets sales datasets.
- Automated daily formatting of PayPal and Stripe reports (about 50 transactions per sheet) with VBA and macros, cutting processing time from about 30 minutes to near-instant. Estimated saving of 18+ hours per month, with fewer manual entry errors.
- Manages website content and product listings.

Audio Naturalness Evaluator (AI Training), Contract

Innodata, Remote (3-month contract, near full time) | Jun 2026 - Aug 2026

- Evaluated audio clips and matching text in Afrikaans and English for naturalness, correcting pronunciation, spelling and punctuation errors against project guidelines.
